

Training History and Certificates of Attendance

Section 3 contains a summary of your training history and information about any prolonged periods of leave. At the start of each new post you should record the region and unit you are working in and the name of your Educational Supervisor. There are also areas for you to record details of any overseas or supplementary training you may have received and a further form for you to record details of all the courses and regional training days you have attended. Please file any certificates you have received from courses attended in this section.
