Abstract Submission Guidelines

Format of the abstract
- The full title of your submission must not exceed 50 words
- The maximum length of the main body of the abstract should be 250 words (i.e. excluding title, authors and institutions) and must follow the structured format outlined below:
  o Introduction

- No figures, tables or references are permitted. Please ensure that results are given (do not state: results will be presented at the meeting) and appropriate statistical tests have been used and reported.

Your abstract will be reproduced in the abstract booklet and BJOG exactly how you submit it. Amendments after the submission deadline are not possible.
