

OVERVIEW

A one day workshop where delegates can learn about recent innovative topics relevant to management of Massive Obstetric Haemorrhage (MOH). This is combined with a hands-on workshop with practical clinical tips from world known experts on uterine compression sutures and balloon tamponade.

After attending the meeting, you will:

- Understand rationale behind visual assessment of MOH and crucial interventions such as compression sutures and tamponade
- Understand the extended role of ultrasonography in acute management of MOH
- Learn about selective devascularisation techniques such as internal iliac ligation
- Appreciate new developments relevant to MOH management such as tranexamic acid
- Develop understanding of medicolegal aspects of managing MOH
- Hands on stations on compression sutures, balloon tamponade, EBL etc...
- Complements the Labour Ward Lead ATSM for senior trainees

Who Should Attend?

- Consultants and SAS Doctors in Obstetrics and Gynaecology
- Senior Trainees (ST4-7)
- Midwives

Course Organisers

Mr Wai Yoong FRCOG, London

Mr Wasim Lodhi MRCOG, London

Mr Mahantesh Karoshi MRCOG, London

Mr Ramesan Navaratnarajah MRCOG, London

Honorary Director of Conferences

Mr Philip Tooze-Hobson FRCOG, Birmingham

Honorary Deputy Director of Conferences

Mr Andrew Sizer FRCOG, Shropshire

Programme

9.00am *REGISTRATION and REFRESHMENTS*

Session I LECTURES

Chaired by Mr Ramesan Navaratnarajah, Consultant Obstetrician and Gynaecologist; RCOG Tutor; Senior Advisor KT Network QMUL, St Bartholomews and the Royal London Hospitals
Room: Lecture Theatre

9.10am **Welcome and introduction**
All Faculty

9.15am **Factors affecting estimation of blood loss in MOH**
