Update on Obstetric Ultrasound

29 January 2016

Overview

The aim of this course is to provide an update on recent advances, guidelines and discussion points in Obstetric Ultrasound and how these apply to clinical management.

This course is designed to offer an in depth overview of each topic with ample time for discussion.

This course is a theoretical one and does not aim to offer training in practical skills, although techniques to optimise imaging will be discussed.

Learning Objectives

- Be familiar with current guidelines and controversies in obstetric ultrasound
- Understand how obstetric ultrasound can inform clinical practice
- Understand the applications and limitations of ultrasound and when referral is required

Who should attend?

- Specialists and Consultants in Obstetrics and Gynaecology with an interest in Obstetric Ultrasound
- All those wanting to update or refresh their knowledge in Obstetric Ultrasound
- Staff Doctors, Staff Grades, Trust Doctors and Associate Specialists

CPD 6 credits  1 day  RCOG, London
Sponsorship and Exhibition

From sponsorship of the meeting, to exhibition stands and delegate pack inserts, there are plenty of ways to promote your product or service at this event.
