MRCOG Final Preparation: Part 3 Recap Course

Friday 1 November 2019
Venue: RCOG

Overview
This is a unique last-minute lecture course with videos and live demonstrations of structured discussions and simulated patient tasks that will enable delegates to understand the principles that underpin the MRCOG Part 3 Clinical Skills Assessment oral examination.

This final preparation course is held on the Friday before the RCOG MRCOG Part 3 Examination and is ideally suited for those from the UK and abroad who want an exam refresher before the exam day.

Learning objectives
- to describe the structure and format of the MRCOG Part 3 examination
- to reproduce the components parts of the blueprint matrix of the MRCOG Part 3 examination
- to describe the basic structure of the examiner marking system
- to relate the five clinical skills domains to clinical situations from the 14 modules of the Part 3 syllabus at an ST5 level of trainee competence
- to discern and analyse the differences between task pass and fail performances

Who should attend?
- Candidates who have passed the MRCOG Part 2 written examination

MRCOG Part 3 Course Convenor
Dr Anju Aggarwal FRCOG, Leeds
