

Example of a Specific Learning Event (SpLE)

Updated unit Colposcopy Guideline in line with primary HPV testing

Learning Event Log

2. Learning Event

This example represents just one individual approach to reflection and action. You can and should use your own style to engage in this process.

What is the title of this Learning Event?	Updated unit Colposcopy Guideline in line with primary HPV testing		
When did you complete this Learning Event?	XX.XX.XXXX		
What was the duration of this Learning Event?	N/A		
Describe this Learning Event			
Which Dimension is this Learning Event linked to?	Professional	Clinical ✓	Extended Role
What type of Learning Event is this?	Formal	Experiential	Specific ✓
Link to Practice and Roles	Consultant / Colposcopy Clinic		
Link to Personal Learning Plan[†]	Maintain BSCCP Accreditation		
Link to GMC Domains of GMP (optional)	Domain 1: Knowledge Skills and Performance		
Do you want to upload evidence?	Yes	Not now ✓	
Do you want to complete a Reflective Log? (optional for FLE/SpLE – mandatory for ELE)	Yes	Not now	
Do you want to complete an Action Log?	Yes ✓	Not now	

**What is the Credit Value
of this Learning Event?**

Reflective Log

3. Reflection

What prompted this Learning Event? (You may wish to include reasons why you undertook it, what you wanted to achieve and, if it was planned, how it links to your PLP)	Our local cervical screening programme introduced primary HPV screening in advance on the national roll out. Our local Colposcopy Guidelines needed to be updated to reflect this change to clinical practice. An updated guideline was also required for the Colposcopy QA visit due soon.	
What did you learn from this Learning Event? (You may wish to include whether it achieved what you wanted to achieve, how it might be helpful in your future practice, and any plans for further development activity that has resulted from this learning)	I took the lead on updating our Guideline. As a result I ensured that my own knowledge of rationale for primary HPV screening is up to date, and that I am clear regarding the management of patients referred to Colposcopy, especially the recommended follow up. I also realised that we needed a local education campaign to ensure that doctors and nurses not directly involved in Colposcopy were aware of the changes so that appropriate information was being provided to patients away from the Colposcopy clinic.	
Do you want to complete an Action Log?	Yes <input checked="" type="checkbox"/>	Not now <input type="checkbox"/>

Action Log

4. Action

<p>What actions have resulted from this Learning Event? (You may wish to include a description of a change in your or your team's practice or confidence, a description of a specific situation when you applied what you learned, or further learning needs identified as a result of this learning)</p>	<p>I updated our unit's Colposcopy Guideline to reflect introduction of primary HPV screening in our area. I then needed to ensure that the new Guideline was introduced into practice, and particularly that our trainees and gynaecology nurses are aware of the change, and that they are counselling women appropriately prior to taking cervical smears. To achieve this, I did several actions. I circulated the new Guideline to all doctors and gynaecology nurses in the unit. I created laminated A4 posters to be placed in clinic rooms to raise awareness. I delivered a teaching session on our Friday afternoon junior doctor teaching programme. I have met with the senior gynaecology nursing lead and offered to do teaching sessions for the nursing staff.</p>	
<p>Looking forward, what are your next steps? (You may wish to include further learning needs for you or your team as SMART objectives)</p> <p><i>Specific</i> <i>Measurable</i> <i>Achievable</i> <i>Realistic</i> <i>Timed</i></p>	<p>Complete an audit as part of next year's Audit programme regarding appropriate management of High Risk HPV positive smears. I will identify a trainee to do this with my support.</p>	
<p>Do you want to upload evidence?</p>	<p>Yes ✓*</p>	<p>Not now</p>
<p>Additional Credit Value for this Action Log</p>	<p>Simple 1 **</p>	<p>Complex</p>
<p>SUBMIT</p>		

*Copy of presentation, no patient identifiers included

** I have claimed as Simple as the various actions were all completed in under 4 hours, with time for preparation under 2 hours, and local impact only.
