Dear Jeff

I thought you would like to see
this initially - I have acknowledged
it. I am still in hospital but
now getting well fast I hope, though
my intention to be back at work on
May 1st will be about 1/2 way to be too
optimistic

This reference for review is very interesting -
I have ~~commented~~ commented on the Section Chief,
Vigors to allow individuals to have
more say to do with quality - pointing out

MISS JOSEPHINE HAYES
7 WINPOLE STREET

The English CND, ~~commentary~~ - which
certainly
~~being~~ were were in the meeting which
I was in.

However I feel we cannot ^{calculate} ~~calculate~~
see this to the committee for June 15th

and I wonder if you would find
volunteers to make a digest of it for
Circles? I don't think I can write as
I have no secretarial facilities.

I hope to be with you on May 18th
