

## Linking your completed TOG set of questions to your Practice & Role (P&R)

When a TOG set of questions is successfully completed, the system will automatically populate the 'Create Learning Event' form with the title of the TOG article, the 'Specific' type of Learning Event and will allocate 2 CPD credits.

• Please select an appropriate **CPD dimension** (typically clinical). You must link your TOG article to your **Practice & Role (P&R)** or you will be unable to save it as complete and your CPD credits will not be counted.

<ul> <li>Congratulations, you have passed this quiz</li> <li>Please link this learning event to your plan</li> </ul>	
Name of Learning Event *	Description 0
TOG Vol 21 Issue 2: Placental histopathological abnormalities and poor perinatal out Dates Store data	
2019-10-10 EII 2019-10-10	Add evidence +
Dimension 0 *	TOG Vol 21 Issue 2: Placental histopathological abnormalities and poor
Clinical Professional	perinatal outcomes certificate
Type of Learning Event 0 •	Name Evidence for TOG Vol 21 Issue 2: Placental histopathological abnormalities and poor perinatal outcomes
Formal     Experiential	Remove ADD TO CPD
Specific	Link to Practice & Role (required)

• Please click on 'Link to Practice & Role (required)'. The following screen will appear:

• Select an appropriate P&R and then click on 'Link'. This action will take you back to the 'Create Learning Event' form.

You might find that some of your completed TOG sets of questions are not relevant to the P&Rs that you have set, in which case you can link them to the Additional P&R that are available by default. Alternatively, you could create a new P&R by clicking on the 'Add new P&R' tab as displayed above.

If you do not link your Learning Event to your Practice & Role (P&R) you will not be able to save the entry as complete and your CPD credits will not be counted.

• After linking your activity to your P&R, please finalise your Learning Event by clicking on '**Save as completed'**. The system will then allocate the credits to your account.
